22 – 23 October 2019, Room 4.1.12

Tuesday 22 Oct. 2019,

- 9:00- 9:30: E. Aschenauer: "BNL and current status of the EIC project"
- 9:30-10:00 S. Moch: "Status of splitting functions at 4 loops"
- 10:00-10:30 V. Magerya: "Phase space integrals and the reduction schemes for the time-like splitting functions"
- 10:30-11:00 Coffee Break
- 11:00-11:30 D. Boer: "Gluon TMDs and GTMDs in electron-ion collisions"
- 11:30-12:00 A. Vladimirov: "Extraction of TMD distributions: status and plans"
- 12:00-13:30 Lunch
- 13:30-14:00 I. Scimeni: "Jets for TMD studies"
- 14:00-14:30 W. Vogelsang: TBA
- 14:30-15:00 P. Zurita: "Going forward with JRP: ongoing and upcoming work"
- 15:00-15:30 Coffee Break
- 15:30-16:00 O. Veretin: "Renormalization of quark bilinear operators at three loops in the SMOM scheme - status quo"
- 16:00-16:30 Organization issues
- 18:30- Dinner at Namaste <https://www.namaste-regensburg.de/>

Wednesday 23 Oct. 2019

- 9:00-9:30 M. Diehl: "Multiparton interactions and higher twist: status and plans"
- 9:30-10:00 J. Gaunt: "A Monte-Carlo Simulation of Double Parton Scattering"
- 10:30-11:00 B. Kniehl: "Double prompt J/psi hadroproduction as a smoking gun for double parton scattering"
- 10:30-11:00 Coffee Break
- 11:00-11:30 K. Kumericki: "Status and prospects for GPDs extraction from the data"
- 11:30-12:00 V. Braun: "Conformal symmetry and DVCS"
- 12:00-12:15 Concluding remarks if necessary
